

JOINT COMMITTEE MEETS TO PLAN FOR FLOAT IN PASADENA PARADE; FUND TO FINANCE IS NECESSARY

The Evening News Will Receive and Publish All Subscriptions; Whole Community Expected to See Display Is Credit to City

The city of Glendale will be represented by a float in the Tournament of Roses parade in Pasadena on New Year's day. Further, the float will be a fitting representation of Glendale as the city of homes and the fastest growing city in the whole United States.

This was decided at a meeting held late yesterday afternoon at the city hall by a joint committee representing the Greater Glendale Development association and the Glendale Chamber of Commerce.

R. F. Kitterman, cashier of the First National bank, was chosen chairman of the joint committee and Miss Eva Daniels was elected secretary. Miss Josephine Chambers of the art department of the intermediate school was made a member of the joint committee.

Discussion showed the determination of the joint committee to have Glendale fittingly represented at Pasadena, especially in view of the fact that this city won first prize at the tournament last year and, consequently, is expected to "come back" and repeat. But—

It costs real money to design, build and enter a float in the parade and the committee hasn't a cent—yet—with which to work. Therefore, the money necessary MUST be raised by public subscription; business men and citizens generally will have to contribute to the fund that will finance the greater Glendale float.

The Evening News has offered its services in the campaign to raise the fund; the offer has been accepted. The work will begin at once. Details will be told in The Evening News of Monday. But if you cannot wait until then and want to send in your subscription immediately, The Evening News is ready to receive it. Names of the subscribers will be published. Who will be the first to give?

SCHOOL PLAY

LOCAL HIGH SCHOOL WILL PRESENT ATTRACTION ON FRIDAY NIGHT, DEC. 17

Glendale is to have a real show—not a picture show; those we have with us always and they are good ones too—but a "legitimate" show with actors and actresses that are alive, not mere shadows on the silver screen.

The clever performers are Glendale high school students and the date of the main event is Friday evening, December 17, in the high school auditorium. There will also be a matinee performance on the Thursday preceding.

Norma Niblack as the showgirl in "The Flower Shop," a comedy by Winifred Hawbridge, proves herself an inimitable character actress. Thos. Lyon, as the owner of the shop, a Jew, interprets his part in a manner that brings a laugh at every rehearsal, which is proof positive that his work is spontaneous, not stereotyped. Ida Wilbur, as a maiden lady of uncertain age, shows intelligent insight into the work of her part, and so do Brigham Bennett and Walter Kohl.

Finished work is shown in Oliphant Downs' beautiful fantasy, "The Maker of Dreams." Esther Ralston as Pierrette shows the ease and grace of the finished actress, and, indeed, she is an actor of very decided talent. Joe Rhodes as Pierrot, and Tom McNarry as the manufacturer of dreams are most acceptable and reflect credit on their teacher, Miss Garland.

"Suppressed Desires," an irresistibly funny comedy by Susan Glaskell and George Cram Cook, deals with the present day fad of psycho-analysis, and demonstrate that the lady in the play who is a devoted follower of the cult, does not live up to the adage that "what's sauce for the goose is sauce for the gander." Dorothy Jane Bolt, Eva Green and William Farner are so good in this laughable skit that this alone should fill the house to capacity.

Music by the girls' glee club will be an additional attraction, and all in all this show will prove one of the most delightful entertainments of the season.

Death Was Accident

PARIS, Dec. 11.—The authorities, in closing the inquest into the death of Olive Thomas, American film star who died from poisoning here several months ago, announced today that accidental death had been proven.

THIS MAN SENTENCES SELF
SAN FRANCISCO—Everett Smith, colored, asked permission to plead guilty on a charge of burglary. The judge suggested he sentence himself. "Well, when ah was in the jail befoh," said Smith, "ah gained weight; I sentence mahself to six months, yoh honah." He's serving.

NATIONAL GUARD

EFFORTS ARE BEING MADE TO ORGANIZE MILITARY BODY AMONG LOCAL MEN

Plans are under way to organize in Glendale a company of infantry for the new California national guard regiment now being formed. This regiment will probably be known as the First California on account of being the first regiment organized.

During the war the government merged the national guards of the different states into the national army and the men were discharged as of the national army. This left the states without any guard regiments. The new army organization plan provides for twelve infantry companies to a regiment. Eleven companies are now formed and it is said that the twelfth place is being held open for a short time for Glendale in a battalion consisting of one company from Burbank and two from Hollywood which are already formed and expecting their equipment any moment.

Real Americans Should Aid
This is without doubt a movement which ought to appeal to all one hundred per cent Americans and it is strongly urged all citizens personally and through organizations get behind and push and help send Glendale over the top.

The new army bill provides pay for attendance at drill and as the government furnishes full equipment there is no valid reason for any one interested not to join. The age limit is from 18 to 45.

There are numerous benefits to be gained by both individuals as well as localities through the national guard. These will be brought to notice later. In the meantime, it is urged that everyone do his part as a loyal American as well as through pride in Glendale to help this movement to a successful conclusion.

T. G. Watson, head of the Glendale Sheet Metal works, is one of the leaders in the movement in Glendale and it seems certain that every real American citizen will aid the project.

Break Up Meeting

TOKIO, Dec. 11.—Police today broke up a meeting of two hundred socialists being held here to form a national socialist federation. Fifteen leaders were arrested.

CHANGES NAME TO PLEASE HER
CHICAGO—Anton Charles Dvillaitis sought the circuit court's permission to change his name to Anton Yokuboski. He cited as his reason that his sweetheart and bride-to-be is of Polish blood and he, a Lithuanian. To insure their happiness, he said, it would be necessary for him to become a Pole in name.

DR. DUNGAN IS TAKEN BY DEATH

NATIONALLY KNOWN MAN IS DEAD AT HIS RESIDENCE, 329 E. LOMITA AVENUE

NOTED AS SPEAKER

PROMINENT IN CHURCH AND EDUCATION WORK; BURIAL DATE NOT YET SET

The summons of death came very suddenly last evening to Dr. David R. Dungan, nationally known and highly respected citizen of Glendale, whose home was at 329 East Lomita avenue.

Dr. Dungan had had a slight cold, but was otherwise in as good health as usual. He was attacked suddenly with a fainting spell, but as he had had similar seizures before this was not considered dangerous by the members of his household. He would have been 84 years old had he lived till next March.

Dr. David Dungan was a native of Indiana and had been a character of national prominence in his day. He became an important factor in the religious work of the Christian church early in life, and at thirty-five had already a national reputation as a debater and a public speaker. He was an author of considerable repute, having written a number of religious works and also several volumes of fiction with a religious trend, one of which, "On the Rack," is still widely read.

Successful as Teacher

Dr. Dungan attained prominence not only as a preacher and a lecturer but also as a successful teacher. He was one of the professors of Drake university for a number of years, and was also president of Canton university at Canton, Mo. He had taught a sufficient number of years to be a participant in the Carnegie pension fund had he so desired.

Since coming to Glendale about nine years ago, Dr. Dungan has been looked upon as dean and adviser among the ministers of southern California, especially among those of the Christian church.

Reverend Bert Dungan, one of the sons, arrived in Glendale from San Bernardino this morning and word has been received that the other sons are en route from the East to their father's funeral.

Funeral arrangements are being made by the L. G. Scovern undertaking company, and the date of the services will be announced later. It is probable that the funeral will be held Wednesday.

VISITS MEXICO

W. E. HEWITT IS HOME FROM CHAMBER OF COMMERCE TRIP OVER BORDER

W. E. Hewitt, 317 West Broadway, Glendale, of the Glendale Laundry company, arrived home last night after a pleasing visit in Mexico, being one of the 150 or more representatives of the Los Angeles Chamber of Commerce excursion party that crossed the border to attend the inauguration of President Obregon.

"We were royally treated," said Mr. Hewitt to The Evening News today. "Everything was free. We were greeted by bands, officials, banquets and boosters. We were given many entertainments. We were met by President Obregon. I had the pleasure of being with him several times.

"Mexico is a good country. We have been hearing only the bad side of it. Our trip showed us many of the advantages the country has. It needs capital for development and with Obregon as leader, there seems to be every reason to believe that great progress will result.

"Our trip was a complete success in every detail and we certainly were most acceptably received by the officials and the people generally."

Return From East

Mrs. Lewis Stratton, of 1021 South Adams street, returned last night from a four months' visit to the east.

Mrs. Stratton was the guest of relatives in Youngstown and Salem, Ohio, her old home. She also stopped at Pittsburg and other Pennsylvania points and spent a week with friends at San Jose on her way home.

She was accompanied as far as San Jose, on her homeward journey, by Mrs. Lease, of Ohio, who will pass the winter in Pasadena.

EASTERN STAR'S SERVICES HELD

VERY IMPRESSIVE CEREMONY TAKES PLACE LAST NIGHT AT MASONIC TEMPLE

GREET NEW OFFICERS

DECORATIONS ARE CHARMING AND VARIED PROGRAM IS THOROUGHLY ENJOYED

The most important event of the year in Eastern Star annals is the installation of officers,—and officers-elect for the ensuing year were installed last night in the beautifully decorated lodge room at the Masonic Temple.

In the center of the room, over the altar, was hung a large bell formed of various species of ferns. Sprays of asparagus fern were draped from this large bell, which was lighted, to the globes over the star points chairs. These globes had been covered with colored paper to represent the rays of the star. In the east, over the platform where the worthy matron and worthy patron were to be seated a most beautiful canopy of pampas grass and greenery had been arranged.

Intermingled with the greenery were tiny, incandescent lights. From the beams were suspended varicolored balloons. The walls of the chapter room, already resplendent with Masonic decorations and pictures of Knights in Templar uniforms, were also decorated with eucalyptus boughs and pampas grass. The final note of color was added to the scene by beautiful floor lamps placed in various corners of the hall. In front of the chair to be occupied by the associate matron was a beautiful combination floor lamp and flower basket, filled with a beautiful bouquet of tiny pompon chrysanthemums and corn flowers, which was quite Frenchy.

Session Called to Order

Order was called by F. H. Vesper at 8 o'clock. Annie Ethel Rattray was announced as installing marshal and Margaret McPeck Campbell as installing chaplain. Mrs. Rattray was very lovely in a gown of jade green satin and lace. Mrs. Campbell, beloved by every member of Glen Eyrie, was indeed sweet in a gown of salmon-colored taffeta and net. The worthy matron and worthy patron of 1920, Sallie Campbell Braden and James Wyvell, were then escorted into the room to take charge of the installation ceremonies. "Our own dear Sallie," as she is called, was like a doll in her gown of white satin. Past and present worthy matrons and worthy patrons were then escorted to the east and introduced, as follows:

Sisters Pollock, junior past matron, Tower, Ryan, Imler, Hickman, Roberts, Beamon and Campbell; Brothers Crofton, junior past patron, Campbell, Roberts, Beamon, Grumbell, and Ness of Pacific chapter, Los Angeles.

Officers-Elect Appear

Lights in the chapter room were then dimmed and the officers-elect escorted into the room. Each carried a very quaint bouquet of flowers in ragged straw hats, from which trailed vines of smilax. The officers representing the rays of the star carried old-fashioned bouquets in which was hidden a tiny light. The installing matron and worthy matron-elect (Continued on Page 3)

FINAL REPORT

COMPLETE STATEMENT GIVEN ON RESULT OF DRIVE IN CITY FOR RED CROSS

Final returns to the last detail of the works in the Red Cross fourth roll call are reported by Mrs. H. E. Bartlett as follows:

Total amount collected, \$2074.68; amount retained by Glendale chapter, \$1017.02; amount sent to Pacific Division, \$964.93.

Expenses for telegrams, stationery, taxis and advertising amounted to \$93.63.

As the Evening News has stated before, Glendale chapter may well be proud of itself, having more than doubled its quota.

Mrs. E. W. W. Hayward was at the head of the local drive and she and all of her assistants are being congratulated upon the excellent work all did. Mrs. Hayward and her workers, in turn, extend congratulations to the people of the city generally for sending Glendale over the top two times plus.

DELEGATES ARE SELECTED HERE

DISTRICT REPRESENTATIVES TO PASADENA CONFERENCE NAMED LAST NIGHT

FORTY-NINE CHOSEN

ENTER INTO CONGRESSIONAL MEETING UNPLEDGED TO ANY ONE CANDIDATE

In response to the official instructions given by Raymond Benjamin, chairman of the republican state central committee, members of republican clubs in the assembly district of which Glendale is a part, met at the high school last night for the purpose of selecting delegates to attend the ninth district congressional conference, at which a candidate to fill the vacancy caused by the death of Charles Van de Water, congressman-elect, will be chosen.

C. H. Toll of Glendale called last night's meeting to order and gave the authority for the gathering. He was, on motion, made permanent chairman and Judge H. A. Decker of San Fernando was chosen secretary. R. L. McCourt of this city was elected treasurer.

Chairman Toll read the official call issued by State Chairman Benjamin and then a committee was named to select the delegates to the district conference, which is to be held at Pasadena, December 17, at 10 o'clock, at the Y. M. C. A. auditorium. It is expected about 350 delegates will be present from the entire district.

Inquiry last night showed that, under the call, this assembly district is entitled to forty-five delegates and four more at large, a total of forty-nine representatives.

Delegates Are Chosen

The committee named to select the delegates retired and, later, returned with the following nominations, which were accepted by the general meeting:

Glendale—J. H. Braly, Mrs. E. W. (Continued on Page 3)

MUSIC SECTION

MRS. A. H. MONTGOMERY IS HOSTESS; FINE PROGRAM GIVEN TO MEMBERS

By Miss Eva Daniels

The Music Section of the Tuesday Afternoon club met in regular session at the home of the hostess, Mrs. A. H. Montgomery, 415 South Central avenue, on Friday afternoon. Owing to the indisposition of its curator, Mrs. Charles Marlenee, who was unable to be present, the meeting was presided over by the hostess, during which time it was voted to send flowers to Mrs. Marlenee.

A delightful program, arranged by Mrs. Montgomery, was presented as follows:

- I. Hawaiian Guitar Selections
- The Rosary and Hawaiian Melodies (E. Nevin), Keaumoku E. Lewis.
- II. Pianologues by Miss Sidney McClees:
 1. Soap (Fergus).
 2. The Toy-Maker (Peycke).
 3. There Are Fairies at the Bottom of Our Garden (Lehmann).
 4. Vacation (Bartlett).
- III. Vocal Selections:
 - Pagliacci (R. Leonecavallo).
 - Elegie (Massenet).
 - Keaumoku E. Lewis, baritone, encore, "Mother o' Mine."

Of Mr. Lewis it can be truly said he possesses a fine, powerful baritone voice and knows how to use it. His rendition of the "Elegie" brought forth tumultuous applause. His guitar selections were delightful and he handled the instrument with finesse. Mrs. Charles Pendleton acted as his accompanist.

Miss Sidney McClees with her pianologues showed rare ability, both as to her artistry on the piano and her elocutionary powers, as without effort she charmed the assembly with her grace and naivete and was forced to respond with a song poem yet in manuscript, which, when published, will be dedicated to her by its composer, Miss Frieda Peycke, who is also her teacher.

The decorations were carried out in the Christmas colors, red and green, and at the close of the program refreshments were served by the hostess, assisted by Mrs. Charles Pendleton and Mrs. Helen Campbell.

The next meeting of the section will be held at the home of Mrs. Charles A. Parker.

ARGUMENT AGAINST ENTERING IN LEAGUE OF NATIONS IS MADE TO HARDING BY GEORGE HARVEY

President-elect Is Hearing Evidence Upon Both Sides; Charles E. Hughes May Be Chosen as Secretary of State, Is Reported

(Special Service to Glendale Evening News)

MARION, O., Dec. 11.—An earnest argument against entering the League of Nations was being made to President-elect Harding today by Colonel George Harvey, outspoken irreconcilable.

Harvey was trying to offset the case which Charles E. Hughes is believed to have outlined to Harding yesterday in favor of American participation in the league, provided proper safeguards can be secured.

With the departure of Hughes, the belief that Senator Harding will ask him to become secretary of state grew among those closest to the president-elect.

YOUTH CONFESSES TO BRUTAL SLAYING

(Special Service to Glendale Evening News)

VALE, Ore., Dec. 11.—Using a wrench with which to batter George W. Sweeney into unconsciousness, George Howard, 22, crammed the body of his victim into a trunk and buried him alive, according to a signed confession which District Attorney Lytle has in his possession today. Howard's alleged confession stated it was his desire to obtain Sweeney's automobile without buying it that caused him to murder Sweeney.

HEARING ON REVENUE REVISION TO START

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 11.—Hearings on revenue revision will be started next Monday before the house ways and means committee, Chairman Fordney announced today. Treasury tax experts will appear to explain the recommendations of Secretary of the Treasury Houston for increased taxes.

MAY EXTEND MARTIAL LAW IN IRELAND

(Special Service to Glendale Evening News)

LONDON, Dec. 11.—Martial law in Ireland, initially applied to an area in the southwest portion of that country will be immediately extended "should conditions develop subsequently justifying it," according to the latest proclamation issued today by the British government.

MAY REORGANIZE U. S. DEPARTMENTS

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 11.—The house rules committee today recommended immediate action on the resolution of Senator Smoot, looking toward a reorganization of the government departments. The resolution provides for a joint senate and house committee to frame reorganization plans. It passed the senate at the last session.

One Shot; 30 Arrested

DUBLIN, Ireland, Dec. 11.—Sinn Feiners and police engaged in a battle here today following discovery of a bomb factory in a shop in Parnell street. One man was shot and thirty arrests were made. Police reported the confiscation of large quantities of finished bombs.

Quick Action Sought

WASHINGTON, D. C., Dec. 11.—Expedition of the Volstead resolution repealing the law laws were recommended to the House today by the Rules committee. Consideration of the resolution may be started in the House late today.

Weather Forecast

Unsettled tonight and Sunday, with possibly occasional rain.

WRITES "BEHIND GRAY WALLS"
BOISE, Idaho—Idaho has a new author. He is P. C. Murphy, a life-termer in the state penitentiary.

Murphy has just published a book entitled "Behind Gray Walls," which tells the story of his life since he was sentenced to serve the balance of his natural days in the prison.

"Pat" says in his book that he was "in bad" shortly after his arrival because the warden had wind of a threatened jail delivery, and he was placed in solitary confinement.

There, he says, he "sweat nitric acid" and the perspiration that dampened his forehead would have "poisoned a rattlesnake," but he lived in hope and was rewarded by being liberated. He tells of how the prisoners make "junk" out of shells and silver for souvenirs.

Officers Elected

The meeting of N. P. Banks W. R. C. was well attended yesterday, when the chief business of the day was the election of officers, the choice resulting as follows:

Alma Dutton, president; Pearl Gillette, first vice-president; Emma Kortz, junior vice-president; Priscilla Houdyshe, treasurer; Flora Pixley, secretary; Gertrude Tisdale, chaplain; Jennie Phillips, conductor.

Delegates elected to the convention to be held in Stockton in May are Mary Bennett, Elizabeth Dietrich, Rosetta Archer, Cordelia Augustus, Mary Sanford and Fannie Morgan; and alternates are Augusta Patterson, Mary Peck, Nellie Westphal, Elizabeth Boyer, Marie Scudder, and Beatrice Mathews.

The secretary was elected for the third consecutive term, the treasurer for the fourth consecutive term, proving the popularity and satisfactory work of these two officers, Mrs. Flora Pixley and Mrs. Priscilla Houdyshe.

A donation to child welfare work was made, also one to Evergreen Home, for a new building to replace the one destroyed by fire several months ago.

KIDDIES ARE SENTENCED

KANSAS CITY, Kas.—Five boys found guilty of tearing down a stone wall and rolling the stones into the street, are considering appealing from the sentence inflicted by Judge A. J. Herrod as being cruel and unusual punishment. "I sentence the five of you to Sunday school," ordered the judge. "Bring me a letter from the pastor of whatever church you go to, saying you have attended Sunday school or there'll be some rough sledding ahead of you."

ANNOUNCEMENTS

NOTICE TO THE PUBLIC

Notwithstanding reports to the contrary, Harry W. Chase and S. A. Chase are still doing business in Glendale, and temporarily can be reached at 1439 East Wilson. Phone Glendale 1445-W.

NOTICE OF PUBLIC WORK

Public notice is hereby given that the Board of Trustees of the City of Glendale, on the 26th day of November, 1920, did at its meeting on said day, adopt a resolution of intention No. 1144 to order the following improvement to be made, to-wit:

Section 1. That all of that certain ten (10) foot alley in Tract No. 2196, as per map recorded in Book 32, Page 38 of Maps, Records of Los Angeles County, California, be closed up, vacated and abandoned for street and alley purposes.

Section 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is situated in the City of Glendale, County of Los Angeles, State of California, and is more particularly described as follows, to-wit: Beginning at the most southerly corner of Lot 4, Tract No. 3196, as per map recorded in Book 33, Page 38, of Maps, Records of Los Angeles County, California; thence northwesterly along the southwesterly line of Lots 4, 3, 2, and 1 of said Tract 3196 to the most westerly corner of said Lot 1; thence in a direct line across said alley to the most northerly corner of Lot 6 of said Tract 3196; thence along the northeasterly lines of Lots 6 and 5 of said Tract 3196, to the most easterly corner of said Lot 5; thence in a direct line across said alley to point of beginning.

Section 3. The district to be assessed for the expenses of said improvement is described in, and reference is hereby made to said Resolution of Intention No. 1144 for further particulars of said work.

W. W. WATSON,
City Manager and ex-Officio Street Superintendent of the City of Glendale. 78-110

EYEGLASS INSURANCE

The peppery old gentleman who
has instructed his office boy to tell
insurance agents of all kinds that he
is carrying all of the policies that he
can afford, that others don't interest
him, and that he is busy anyway,
may change his mind when he hears
of the newest insurance against
breakage of eyeglasses.

Window glass insurance is old,
but to insure the expensive lenses
without which many people are help-
less comes near to being something
new under the sun. But a company
which does just that thing has been
formed. The policy covers breakage
for a year, for either one or both of
the lenses. But when one accident
has taken place a new policy must
be taken out.

The opticians say that policies are
being taken out in large numbers.

The bagpipe is the earliest musical
instrument on record. It appears on
sculptures dating from 4000 B. C.

PERSONALS

F. W. Paap has taken out a per-
mit for the construction of a five-
room residence at 1416 East Cali-
fornia avenue.

Mr. and Mrs. C. E. Russell, 332
North Kenwood street, leave tomor-
row for Richmond, California, where
they will visit their daughter for two
months.

Earl S. Ball and family, who motored
to Glendale in their Studebaker
Six from Yakima, Wash., are visiting
his parents, Mr. and Mrs. L. W. Ball,
363 West Elk avenue.

J. E. Phillips, of the Jewel City
Undertaking company, who was taken
to the Glendale Sanitarium a
week ago, is improving nicely.

R. M. Brown, of the Glendale Feed
& Fuel company, has been confined
to his home, 416 North Kenwood
street, for the past week with a se-
vere cold.

Mrs. J. A. Endicott, 308 North
Central avenue, has as her week-end
guests her niece, Janice Larson, and
chum of Los Angeles. They will at-
tend the Elks' charity ball tonight.

Mrs. C. W. Wells of Minneapolis,
sister of Mrs. John Hyde Braly, 505
North Brand boulevard, is here to
spend the winter with her. Mrs.
Wells is chairman of arts of the state
of Minnesota and has been State Re-
gent of the Daughters of the Ameri-
can Revolution.

A report has been received at po-
lice headquarters from Pasadena
that a man suffering from heart dis-
ease has disappeared from that city.
His name is Frank Wier, aged 43,
height five feet eleven inches,
weight 165 pounds, wears a dark
blue suit, tan shoes and has gray
hair.

The second basketball team of
Glendale High, coached by Prof. Al-
fred Cookman, is rounding into fine
shape. Their average weight is 130
pounds. Yesterday they played
Owensmouth's first team and beat
them 17 to 12. The line-up was as
follows: Colburn, F.; DuBois, F.;
Merriken, C.; Lyons, G.; Klein, G.
Reckhold and Farley, substitutes
played in the last part of the game.
The Midgets played Alhambra on
Thursday, beating them 14 to 10.

Charles H. Strickler, 1521 Mateo
place, Los Angeles, was backing his
truck out of an alley onto Central
avenue when struck by an automo-
bile being driven by Mrs. E. R. Jones,
4914 South White avenue, Los An-
geles, who was driving south on Cen-
tral avenue. She did not see the
truck until it was right in front of
her. Ethel Kansen, 225 West Bur-
chett street, and Mrs. Jones were
both cut about the face and hands
from the broken glass of the wind
shield.

While driving to Glendale from
Bishop, for a recent visit with their
parents, the two sons of Mr. and Mrs.
S. A. Trowbridge, 437 Burchett
street, had a narrow escape from
death. Just at the approach to the
bridge over the Los Angeles acqued-
uct, about 200 miles north of here,
their car skidded and crashed into
the guard rail, then ran onto the
bridge and smashed through the rail-
ing again, stopping with the front
wheels hanging over the edge of the
bridge. Had the car gone into the
stream, both young men certainly
would have drowned as the aqueduct
runs about fourteen feet deep at this
point with perpendicular walls.

Mrs. John Hyde Braly, 505 North
Brand boulevard, regent of the Gen-
eral Richard Gridley chapter, G. A.
R., is in receipt of a letter from Mrs.
H. A. Sherman, regent of the D. A.
R. chapter at New Bedford, Mass.,
inclosing a Christmas present from
that chapter to the Richard Gridley
chapter of \$4, to be added to the
mile of pennies they are collecting.
Mrs. Sherman saw an account in a
magazine about the "White Break-
fasts" which Mrs. Braly gives every
June to her officers and wrote to her
for particulars, so that she might fol-
low the same plan in New Bedford.
She had also read an account about
the mile of pennies which the Rich-
ard Gridley chapter is collecting for
the maternity hospital in Los An-
geles. In her letter to Mrs. Braly,
Mrs. Sherman says that a philan-
thropic organization in New Bedford
has now adopted this means of rais-
ing money for their work.

The Greatest Business

in the world must necessarily be
the one which attacks the greatest
problem that confronts human be-
ings. Life Insurance and Religion
are allied because they both deal
with the same problem, but Chris-
tianity deals with the problem as it
relates to spiritual things, whereas
Life Insurance deals with it as it
concerns mundane affairs. Life
Insurance is the most highly orga-
nized form of social service. The
fact that it is a business and not
a benevolence is of no conse-
quence; in fact, the greatest social
services are performed on a busi-
ness basis. The big work of
civilization is always done by so-
called business organizations. They
perform some piece of work which
is needed to be done by so-
ciety and for the doing of which
"the laborer is worthy of his
hire." I am proud to be con-
nected with a business which is
one of the great agencies for mak-
ing the world better.

WOMEN'S UNION

ALL DAY MEETING IS HELD
AND EXCELLENT PROGRAM
GIVEN TO MEMBERS

(Contributed)

Glendale folks are surely just as
busy as anybody else these days get-
ting mysterious packages ready and
off, but to those who attended the
all-day meeting of the Women's Union
Thursday, at the First Baptist
church, it was evident that a splen-
did crowd of women was more than
willing to lay aside its personal work
for a day and taste of the joy of pro-
viding for others a little Christmas
joy.

The whole morning was spent in
helping Old Santa and the luncheon
hour came only too soon. But how
good it all did taste! It was at this
time that a clever little game was en-
joyed when the many news folks
were introduced.

The afternoon session was un-
usually interesting, inasmuch as the
business portion of it disclosed what
a really wonderful work the Baptist
ladies are doing. Work for the past
month has been along Christmas
and so many hearts will be made
glad because of the co-operation of
Yuletide spirit of this organization
this year.

Following the business meeting,
the president, Mrs. Jacob Gray, led
with the devotionals after which Mrs.
Paul Elliott sang. Though Mrs. El-
liott is one of the newer members,
she has already gotten into the spirit
of giving of herself and of her gift
so graciously.

Tells of Experiences in Japan

Mrs. Walter Stamps, who had
charge of the program, brought to
the ladies a treat when she intro-
duced a personal girlhood friend,
Mrs. Frank R. Boynton of Sendai,
Japan. Mrs. Boynton spoke of some
of her personal experiences in Japan
in such a delightful, informal way
that one regretted that there had to
be a limit to her allotted time. Her
life in Sendai was spent in teaching
English or conversation in the high
school of the mission school for the
Japanese there and in bringing her
subject to a close she was prevailed
upon to sing a little song she had
learned in Japanese.

Mrs. Ruth Bentley assisted Mrs.
Boynton, wearing a most becoming
Japanese costume in black and
white.

All in all, the day was a most
profitable one as all these meetings
are and a large crowd attended.

FOR CONGRESS

DELEGATES ARE CHOSEN TO
REPRESENT THIS DISTRICT
AT PASADENA MEETING

(Continued from Page 1)

W. Hayward, Mrs. H. E. Bartlett, A.
T. Cowan, Albert D. Pearce, J. G.
Huntley, John McGregor, Charles
Rudell, Judge Harry M. Miller,
Harry E. White, R. L. McCourt,
Judge F. H. Lowe, Owen C. Emery.

Highland Park—L. V. Shepherd,
W. A. Roberts, J. F. Cumberland, W.
H. Stewart, D. C. Welty, Charles E.
McDowell, W. H. Featherston, W. J.
O'Brien, Judge W. Blackstock, Wil-
liam Miller, I. I. Phillips, C. M.
Church, G. W. E. Griffith.

Eagle Rock—Robertson Abbot,
Rush L. Woodhouse, Percy Schu-
macher, C. E. Spencer.

San Fernando—Vernley Craig, F.
D. Lewis, E. R. Elkins, C. S. McCor-
mick, L. Q. Bransom.

Burbank—W. A. Blanchard,
Charles W. Anderson, C. H. Cline.

East Los Angeles—Mrs. Robert
Humphries.

Van Nuys—Fred Kellogg, Mr.
Pike.

Saugus—Judge Buckley, W. H.
Baum.

Palmdale—W. E. Jones.

Edendale—J. Mills Davies.

Annandale—James W. Vance.

Lankershim—Fred Weddington.

La Crescenta—Harvey S. Dinsel.

Short Talks Are Made

While the delegates were being
chosen by the committee, talks were
given by a number of those remain-
ing in the general meeting. Among
the speakers were C. L. Chandler, J.
H. Braly, R. L. McCourt, Glendale;
J. F. Cumberland and W. A. Roberts,
Highland Park; Volney Craig, San
Fernando; Mr. Blanchard, Burbank.

The speakers paid fitting tribute
to the memory of Congressman-elect
Van de Water. They also referred
to the republican party's recent suc-
cess nationally and, in particular,
urged that voters of the ninth dis-
trict send a republican to congress.

No candidate was discussed at the
meeting, for the official call of the
head of the state organization pro-
hibited the endorsement of a candi-
date.

The delegates of all sections go to
the conference in Pasadena unpledged
to any candidate and they will
abide by the will of the majority.

In addition to the delegates chosen
last night, C. H. Toll, W. E. Evans,
C. F. Parker and C. L. Chandler of
Glendale will also attend the Pas-
adena conference, as provided for in
the call issued by State Chairman
Benjamin.

LONESOME JOB

DRAWBRIDGE ON, MISSISSIPPI
HAS NIGHT WATCHMAN IN
ISOLATED POSITION

ST. PAUL, Minn.—Driving a lone-
ly dromedary across the Sahara des-
ert is the height of sociability com-
pared with tending a drawbridge
over the Mississippi river.

Don't you believe it? Then ask
Jack McAuliffe, night watchman of
the Great Western railroad draw-
bridge, which crosses the river be-
neath the Robert street bridge. He
will tell you that he not only has the
loneliest job in St. Paul, but one of
the loneliest jobs in the whole world.
Every night Mr. McAuliffe spends
the hours from 11 p. m. to 7 a. m.
all by his lonesome in a little house
suspended in the air halfway be-
tween the railway tracks and the
Robert street bridge. When he isn't
there he is busy resting up for his
night's work at his home, 1234 Wei-
land street. It is indeed a gay life!
"One nice thing about my job,"
said Mr. McAuliffe, "is that I'm not
bothered by many visitors."

Might Be Hit by Train

To get to his place of business, one
would have to climb over a bunch of
slippery railroad tracks, walk over
the trestle bridge and climb up two
flights of rickety stairs into the air.
Outside of the fact that the visitor
is liable to get hit by a train, slip off
the bridge and get drowned in the
river or fall off the stairs and break
his neck on the bridge, it is an easy
place to get to.

So McAuliffe has plenty of time to
himself.

"What do you do with all this
spare time?" inquired a "daring" vi-
sitor.

"Well, sometimes I sit and think
and sometimes I just sit," McAuliffe
replied.

"Is there much work connected
with your job?"

"Oh, yes, indeed," said Mr. Mc-
Auliffe. "Every time a boat wants
to get by I have to raise the draw-
bridge."

"And how often does a boat go
through?"

"Oh, about once a month!"

Mr. McAuliffe said that he had
often contemplated getting some less
strenuous job—such as calling the
stations on a Pacific liner or picking
the blossoms off a century plant.
These jobs, however, appear to be
rather scarce, so the present indica-
tions are that Mr. McAuliffe will re-
tain his present position for some
time to come.

The National Geographical Maga-
zine calls attention to the fact that
twenty-five out of the forty-eight
states of the United States bear
names of Indian origin. Twelve
states bear English names, six Span-
ish, three French, and only two
names that are historically American.

EASTERN STAR

VERY IMPRESSIVE CEREMONY
IS HELD; FINE PROGRAM
IS WELL PRESENTED

(Continued from Page One)

each carried bouquets of pink sweet
peas.

Following prayer led by the in-
stalling chaplain, the installing mar-
shal escorted the officers-elect, as
their names were called, to the altar
where they formed in a semi-circle.
They responded in unison to the ob-
ligation given by the installing
matron. The worthy-matron elect,
Orma Vesper Naudain, was then
called upon to pledge herself and was
invested with the badge of office.
She was beautifully gowned in white
satin and net trimmed with sequins.
She was then escorted to the east.
Worthy patron-elect, William War-
ren Worley, then pledged himself
and was invested with the badge of
office and escorted to the east. As-
sociate matron-elect Fannie May
Parke, gowned in heavily-braided
white georgette crepe, was then pre-
sented for installation and invested
with the badge of office.

Saxophone Solo Given

A saxophone solo by Mr. Baker
met with such popular approval that
he was called upon for two encores.

The officers who were then pre-
sented for installation and invested
with the badge of office were: Sec-
retary, Annetta Booth; treasurer,
Alice M. Carvel; conductress, Mild-
red Lyon, and associate conduc-
tress, Jennie Phillips.

Howard Vesper, nephew of the
new worthy matron, then delighted
the audience by two baritone solos.
He was accompanied by Mrs. John
Allen Legge on the piano.

The officers then presented for in-
stallation and invested with the
badge of office were: Chaplain,
Eva G. Vesper; marshal, Garnet
Young, proxy for Annie Ethel Rat-
tray; organist, Franc Kinch; warder,
Sadie McPherson, and sentinel, Har-
ry Leroy Reid.

Charming Reading Is Given

A very charming reading from
"Peg o' My Heart" was given by
Doris Packer, with "The Sign of
Spring," an Italian characterization,
as an encore.

The five rays of the star were then
presented for installation, represent-
ed by Doris M. Ingledue, the blue ray
of Adah; Mae Warrick, the yellow
ray of Ruth; Carrye G. Baird, the
white ray of Esther; Bernadine Wor-
ley, the green ray of Martha, and
Mae Cornwell, the red ray of Electa.

After presentation of constitution
and other papers, the worthy matron-
elect then assumed her position as
worthy matron of Glen Eyrle Chapter
No. 237, O. E. S. The officers were
then proclaimed regularly installed
by the marshal.

Mrs. McKellar graciously rendered
two vocal solos.

Interesting Talks Given

Orma V. Naudain and William
Warren Worley each gave very inter-
esting talks. Junior Past Matron
Braden was then presented with the
jewel, a diamond set in an Eastern
Star emblem, from the chapter. Many
other handsome gifts and bouquets
were presented to the junior past
matron and patron, present worthy
matron and patron and associate
matron.

Many comments of praise were
heard both as to decorations and also
as to the manner in which the work
of installation was done.

Mention should be made here of
the decoration committee, through
whose untiring efforts much of the
success of the evening was due. This
committee, composed of Mesdames
Fred Deal, C. O. Pulliam, R. V.
Hogue, Frank Echols, H. E. Betz,
and Fred Deal, is to be complimented
on the beauty and originality of the
decorations. Mrs. Eva G. Pierce
presided at the piano during instal-
lation.

After the worthy matron had
thanked her committees and those
who gave of their talents she declar-
ed the "End of a Perfect Day."

PROMOTING THE CAT

Inasmuch as rats did much dam-
age to his papers, a Hindu clerk, who
was in charge of the official docu-
ments in one of the more remote In-
dian towns, obtained permission to
keep two cats, the larger of which
was to receive somewhat better rat-
tions than the other. A few weeks
later the head office at Delhi re-
ceived this dispatch: "I have the
honor to inform you that the senior
cat is absent without leave. What
shall I do?" To this problem the
office vouchsafed no reply. After
waiting a few days the Hindu sent
off a proposal: "In re absentee cat,
I propose to promote the junior cat,
and in the meantime to take into
government service a probationer
cat on full ratations."

MANY BRIDAL BELIEFS

One is inclined to believe that the
job of the forelock collector would
have been greatly curtailed had it
not been for the fund of material
that is wrapped around the bride.
Every little move she wakes, every
stitch in her gown, the flowers in her
bridal bouquet, and the jewels she
wears on her wedding day all have
secret portents.

If the first flower a bride sees on
her wedding morn is white, say the
folkloreists, she will lead a happy
life; if red she will know sorrow and
care. If a bunch of pink roses is
given to a bride it is lucky.

The boots worn by the life guards
of the British army cost \$60 a pair.

A Business Man's Opinion—

The business manager of a concern with a world-wide busi-
ness was talking to the wife of one of his salesmen. The con-
versation turned to the difficulty of securing help in the home
and the woman stated that she was forced to do her own
laundry work.

"But, wouldn't it be more economical to send your washing to
the laundry?" asked the business man. "I'm looking at the
matter from a business standpoint. Wouldn't it be wiser to
give more of your time to home management; to shopping in
person instead of by phone; to thinking up plans to make your
home pleasanter for your family?"

She tried it and it worked. This is the modern solution of the
washday problem. Phone and our driver will call for your
bundle.

ORIGIN OF BILLIARDS

Investigation into the popular
game of billiards produces some
queer history, both as to the origin
of the game and the methods used in
manufacturing the paraphernalia. It
is said to have begun when William
Kew, an English pawnbroker in the
sixteenth century, passed idle mo-
ments by pushing about three golden
balls of his trade with a yard stick.
He soon gained considerable skill,
and the game became known in Lon-
don as "Will's Yard," and this was
corrupted to "Willyard," and then
to "Billiard," and lastly to its pres-
ent form. The players seeking a name
for the stick with which the balls
were pushed about called it after its
originator "Kew," the French, after
taking over the game, respelling it
"que."

The ivory balls have to be season-
ed for many months before they are
ready for play and manufacturers

have incubators in which to store
them, many of the latter holding as
high as 3000 balls. The deep red
color of the red balls is known as
the "guardsman's bath," a dipping
into dye secured by boiling English
soldiers' red coats. The finer tables
used are built of Spanish mahogany,
ebony or satin wood, and some of
this has to be seasoned seven years
before being used. The green cloth
was first used by Prince Leopold, and
it is still known as "Prince Leopold
green." It was selected as being less
hard on the eye under the bright
light demanded for playing, than any
other color.

The number of automobiles ex-
ported by American firms during
the fiscal year of 1919-1920 has in-
creased enormously over any pre-
vious year. Commercial cars sold
abroad numbered 24,345 and passen-
ger cars, 115,519.

MORE EVIDENCE

HART REALTY COMPANY IS
HIGHLY PLEASED WITH
ADVERTISING RESULTS

Every day evidences come to the attention of The Evening News that the advertising columns of this paper are great result producers. By telephone, by letter and by personal visitation is the testimony of the power of The Evening News advertising columns brought to the attention of this office.

Now comes the Hart Realty company with a letter on this subject, saying:

"The fact that we have just closed a deal for a residence advertised in The Glendale Evening News within eighteen hours after the first insertion appeared is proof conclusive that we have a paper in our midst that not only is read by a majority of our wide-awake residents, but is a factor in the advertising field that must be reckoned with for all time to come. Here's to the success of The Glendale Evening News."

"Yours truly,
"HART REALTY CO."

The management of The Evening News appreciates the confidence shown in this paper by the Hart Realty company and the letter is filed away with many others which express pleasure at the fine results given by the advertising columns.

A western syndicate has leased 100,000 square miles of Russian territory for a period of 60 years. The same syndicate reports it has made arrangements for the purchase in America of \$3,000,000,000 worth of goods in the next three years.

FAVOR PROJECT
STATE REALTY MEN DECIDE
TO GET BEHIND GREAT
WATER PROPOSITION

Representatives of the Glendale Realty board have been in attendance at the sessions of the California Real Estate association, held in Los Angeles, the official delegate of the local body being Charles B. Guthrie.

The sessions came to a close at noon today, the afternoon being spent in sight-seeing. Tonight a banquet will be held at a Los Angeles hotel.

The state association, at yesterday's gathering, got definitely behind the Marshall irrigation project when it unanimously passed a motion instructing its resolutions committee to draft a resolution calling upon the state legislature to make an appropriation of \$500,000 to make a report on the engineering and financial features of the plan.

This project, which would add 12,000,000 acres to the cultivated area of the state, and, according to estimates, would add 3,000,000 people and \$3,000,000,000 to the assets of California, has as its central plan the turning of the Sacramento river into the San Joaquin valley. Col. R. B. Marshall, father of the plan, addressed the convention and stated that the cost of the project would be approximately \$750,000,000, and that it would mean "a gold mine to the end of time for California." He pointed out that it would provide ample irrigation for five great valleys in this state, the Sacramento, the San Joaquin, the Santa Clara, the Concord and the Livermore.

Four times as much water as is now available for Los Angeles through its present aqueduct would be supplied by diverting the waters of the Kern river to the needs of this vicinity, he declared. Thomas McManus of Bakersfield said that the project would add 800,000 productive acres to the territory immediately tributary to Los Angeles, and vastly more to territory within a beneficial radius of that city.

MRS. DENNIS DIES

RESIDENT OF GLENDALE IS
CALLED; LEAVES HUSBAND
AND TWO CHILDREN

The angel of death entered the M. C. Dennis home, at 107 South Central avenue, on the afternoon of Tuesday, December seventh, and bore away with him the spirit of Mrs. Athel Dennis, the wife and mother of the home.

Mrs. Dennis had lived in Glendale a year and in California two years. Her husband, March C. Dennis, is an expert architectural engineer for the National Harvester company and was in Chicago on business when his wife died. He arrived in Glendale this morning.

Besides her husband, Mrs. Dennis is survived by two young children, who will sorely miss the wise guidance of a loving mother. She also leaves her mother, Mrs. Celesta Frasier, and her brother, R. W. Frasier.

Christian Science burial services will be held at 10 o'clock Monday morning at the Pulliam & Kiefer Undertaking chapel.

SOCCER TITLE

PACIFIC AVENUE SCHOOL IS
WINNER CHAMPIONSHIP IN
GLENDALE LEAGUE

The soccer team representing the Pacific avenue school has won the soccer championship in the league composed of teams from all the grammar schools of Glendale.

The Pacific team won the title yesterday, defeating the Central avenue organization. The Central avenue bunch was a hard one to beat. The two teams met three times, the first game going to the Pacifics by a score of 1 to 0. The second contest was a tie and the third was taken by the Pacific tigers by a score of 3 to 0.

The Pacifics, now the champions of all grammar schools in Glendale, presents the following line-up: John Coplin, Francis Morgan, Alfred Hermann, Raymond Steele, Keith Rudy, Loran Pier, George Butterly, Herman Francino, Leslie Francino, Howard Gilmore and John Laver.

BREAKS WINDOW

LADDER FALLS AGAINST BIG
PLATE GLASS AT COOK'S
CONFECTIONERY STORE

One of the large plate-glass windows in the new building at 128 South Brand, occupied by Cook's confectionery, was broken yesterday afternoon.

One of the painters engaged in putting the finishing touches on the new structure had the misfortune to allow a ladder to fall against the window. The result was a great hole was made in the expensive window. The window is boarded until new glass can be installed.

Yesterday was the first day Cook's was open and a most gratifying patronage is reported by the management.

In Madagascar no home is complete without a household god.

DRAWS AUTO ALONG WITH AID OF TEETH

NOVEL ADVERTISING STUNT IS STAGED BY LOCAL AGENTS OF HUDSON AND ESSEX

Chambers & Felts, the Brand boulevard representatives of the Hudson and Essex automobiles, pulled off a novel advertising stunt one afternoon this week. An Essex occupied by four U. S. marine corps members, in uniform, was pulled around town by a young man in another machine, who drew the car by means of a rope which he held in his teeth. The long rope was attached to the axle of the car which he was towing in this unusual manner by means of an inner tube. This relieved the vibration and minimized the jar on the teeth.

A bugler heralded the approach of this unique stunt, which demonstrated the ease with which the Essex car is moved. The procession attracted much attention and great interest as the car was thus towed up Brand boulevard, even making the grade without the slightest difficulty. The towed Essex with its human burden weighed about 3,500 pounds.

Chambers & Felts last month disposed of six Essex and Hudson cars, which was a splendid record under the present temporary conditions.

AUTO PIONEER IS CALLED BY DEATH

HORACE E. DODGE DIES AT HIS WINTER RESIDENCE, PALM BEACH, FLA.

Horace E. Dodge, millionaire automobile manufacturer, died on Friday at Palm Beach, Fla., at his winter home.

Horace E. Dodge had been the sole head of the Dodge Brothers automobile interests since the sudden death, January 14, 1920, of John Dodge, his elder brother. The brothers founded the automobile business, that bore their name, in Detroit, eight years ago.

Mr. Dodge was one of the real pioneers of the automobile industry. Born in Niles, Mich., in the sixties, he and his brother, John, moved early in life to Detroit, where they set up a machine shop. From the first days of the automobile they were interested in motor cars and in their shop a large portion of the parts used in the early day Oldsmobile was manufactured.

Later they formed a contract with Henry Ford and began manufacturing parts for the Ford, finally building everything used in that car save wheels, body and top. They were at that time interested in the Ford company to the extent of \$10,000, but this grew very rapidly through dividends and increased market value until at the time of severing their relations with Mr. Ford, July 1, 1914, their dividend receipts are said to have totaled over \$5,000,000 and their holdings about \$26,000,000.

SEE TIRES INSTEAD OF SKELETONS NOW

BODIES OF HUMANS DOTTED ROADS IN 1849; NOW IT'S WORNOUT AUTO TIRES

Andrew Lewis, who has arrived in Redlands, Cal., after a cross-country trip, says that there is an immense movement westward over the roads, so large that the bodies of humans and horses that formerly marked the trails have been supplanted entirely by wornout automobile tires, tops and camping equipment.

Bodies of humans and horses dotted the roads in 1849 when there was such a great transcontinental movement toward California. But times have changed and mode of travel, and now, Lewis says, every few hundred yards one sees an old automobile casing, worn out and thrown away. Instead of gold the travelers are seeking health.

Mr. Lewis says that one day he decided to count the tires and he counted just 169 in a stretch of less than 150 miles and that was across the desert where the travel was scattered. The following day 185 tires were counted in about 160 miles.

On Way to California

The party camped near Denver at a camping park there and found 207 machines drawn up. A poll was taken and it was found that 203 were on their way to California.

An incident that occurred in Illinois brought to light the newest peculiarity of a popular light car. One of the members made a mistake by putting sorghum in the crank case instead of lubricating oil. The car traveled sixteen miles that day, then sixty miles the next day, and almost seventy the next day. But the third day it balked until the taffy was taken out of the crank case.

BRITAIN PLANS NEW ROADS

Great Britain is formulating a plan for finding work for 500,000 unemployed men during the coming winter. The scheme provides for the construction of roads in the vicinity of large towns where the highways are urgently required to relieve congested traffic.

SOME FACTS UPON STORAGE BATTERY

A. S. KNOX GIVES INFORMATION OF GENERAL INTEREST ON WHAT TAKES PLACE

When you place a casual toe on the starter button and a cold stiff motor with, perhaps, high compression, promptly begins to turn over, has it ever occurred to you to wonder what is taking place in the battery that is furnishing all the power?

Listen to A. S. Knox, Autoelectric Service company, distributor of Exide storage batteries. He says:

"Electrical energy, or power, is a very difficult thing to describe in its action as compared with other forms of power, such as steam. It is more like the human energy that we generate within our own bodies than any of the mechanical forms of power and to understand what takes place in a storage battery when it is furnishing power to start a car, perhaps the best way is to get out and turn the car over yourself a few times. Where do you get the power to do it? Out of your muscles, you say. But where do you get the power that energizes them?

Likened to Human Body

"A storage battery can be likened to the human body quite easily. The plates are the muscles, the grids on which the plates are built the bones, and the electrolyte solution circulating through the battery, the life blood. This circulation must be free and unrestricted or you have a weak, lousy battery—the human comparison. That is where insulation enters in as a very important factor. Then the plates must be strong muscular plates or you haven't much power and for good muscles you need good strong bone to build on—the grids.

"When the battery is furnishing power there is an action taking place very like that taking place in your arm when you grip something hard, and if you have not a good strong grid to stand the strain you have a plate that buckles out of shape."

PURCHASE AUTO TO SECURE DIVIDENDS

AUTOMOBILE IS CERTAIN TO PROVE PAYING INVESTMENT TO ALL WHO OWN ONE

When the gulping populace stood on the banks of the Hudson river and watched the first steamboat puff its way slowly but surely onward there no doubt arose a great cry of "Fake," "Impractical," and "I wouldn't put a cent into any such a scheme." But the steamboat has become a necessity.

And likewise when the first automobile laboriously struggled over the rough roads it was doomed by the great majority to an early grave. But despite the croakers and the scoffers the automobile and the steamboat have survived and progressed until they are now an absolute necessity, and being a necessity they are essentially a good investment.

Yields Large Dividends

The man who today buys an automobile is investing his money and investing it in an article which yields large dividends in those priceless commodities, health, happiness and pleasure. It gives him health because it takes him out into the open places, takes him out of the crowded street cars and trains, and enables him to live in a suburban locality where his family can have room and fresh air.

It gives him happiness because there is a pride in the ownership of an automobile which is all-powerful. And it gives him pleasure because it enables him to indulge in the fascinating and world-old lure of travel.

But as investments differ in monetary value in just the same proportions as the business sagacity of the investor, so the resale value of the automobile depends on the kind and quality of the automobile purchased, for it is the resale value which determines the actual money cost of an automobile.

AMMONIA IS GOOD THING IN GARAGE

HANDY TO HAVE AROUND IF DROP OF BATTERY LIQUID GETS UPON CLOTHES

With clothes at \$100 or so a suit and shoes around \$15, it pays to be careful when you test your battery with a hydrometer or put in water. There is always a chance that a drop of the battery solution will spatter, though care in using the hydrometer may make the danger of damage extremely remote.

"In case the unexpected should happen," says E. W. Cizek, Willard service station dealer, "you can protect yourself if you have a small bottle of ammonia handy in the garage. If put on promptly, the ammonia may save a suit, a pair of shoes or a bad spot on the running board of your car.

"Ammonia can also be used to clean corrosion from connections and battery terminals."

An endless belt for unloading motor trucks has been invented. The power for operation is made by the rear wheels of a truck resting on rollers.

Something for Nothing!

Knowing the limited knowledge the average car owner has of the workings of his motor—

Also knowing how much more efficiency and less expense they would have if they would spare a little time to have some competent person explain—why is a gas engine—

Feeling the general public will welcome this opportunity, we have decided to give a number of

FREE LECTURES AND DEMONSTRATIONS

in the near future.

The lectures and demonstrations will be under the supervision of Mr. Alvin E. Sanders (who is in our employ), who's recommendation from Kelly Field is given below in order to show that Mr. Sanders is a competent man to handle this demonstration:

Mechanical Instruction Division,
Course for Motor Mechanics, A. S. M. S.,
Kelly Field, Texas, February 6, 1919.

TO WHOM IT MAY CONCERN:

Sergeant First Class Alvin E. Sanders was assigned to this department March 20th, 1918, as an instructor of aviation engines. During the past six months he has rendered this division valuable service while acting in the capacity of assistant chief instructor. He was held responsible for correct instruction and discipline of instructors and students, also aiding and lecturing and examining. He has proven himself to be a most conscientious, ambitious, and efficient instructor, possessing an excellent knowledge of the construction and repair of aviation engines. His method of imparting his knowledge is very clear and thorough. I heartily recommend him to anyone desiring the services of a reliable, first class mechanic in either a practical or executive position.

TWO STRONG LINES OF TIRES CARRIED

BOTH HOWE AND U. S. TUBES ARE IN STOCK OF PLATT STORE, IN GLENDAL

Platt's tire and accessories store, 129 South Brand boulevard, carries in stock both Howe and U. S. tubes. The Howe is considered one of the very best tubes manufactured in the country, although the price of it is no higher than is charged for some ordinary ones. Every man who has had much experience with autos knows that it is poor economy to buy the cheapest tubes or tires.

BRIGHT OUTLOOK IN TIRE BUSINESS

INDUSTRY WILL RIGHT ITSELF WITHIN FEW MONTHS, SAYS COMPANY'S PRESIDENT

If every car owner bought one tire, the so-called surplus of overproduction against which the tire industry is now laboring, would be exhausted in one day. This is a conclusion reached from interviews given out in New York by two of the biggest figures in the tire world—Colonel Samuel P. Colt, president of the United States Rubber company, and W. O. Rutherford, president of the B. F. Goodrich Rubber company.

"While the tire trade is in a demoralized condition at present owing to the change in times which has resulted in overproduction, I feel that the business cannot fail to right itself within a reasonable period, say from four to six months," said Samuel P. Colt, chairman of the board of the United States Rubber company. "The tire business is comparatively new, having grown up during the last fifteen years, and its expansion up to the present time has been without interruption.

Essential to Welfare

W. O. Rutherford, of the B. F. Goodrich Rubber company, declared that motor-cars and trucks are essential to the welfare of the country, and that without them transportation facilities and business generally might easily be paralyzed.

"The motor vehicle must be used in this country constantly, so it is not a serious matter if we have a

few extra tires on hand above the ordinary supply," said he. "The tire is just as essential as rails are to railroad traffic. The supply of these tires on hand is no greater, and indeed not so great, as the supply of shoes, clothing and other materials in other industries."

GOOD MARKET IN MEXICO
Mexico is one of the largest Latin-American customers for automobiles, the 1920 exports of motor vehicles from the United States to Mexico having been exceeded only by those to Cuba, Argentina and Brazil.

Three women, all republicans, are to sit in the Kansas legislature.

Reuter Buys Buick

George P. Reuter of Ivy street, manager of the Los Angeles Review, has purchased a 7-passenger Buick from Tanner & Hall, the local agents. The sale was made this week. The records show that this firm did a good business last month, all things considered, in selling Buicks.

Rubber, which is the foundation of automobile tire construction, is grown in South America, Africa, Ceylon, Borneo, Java, Sumatra and Straits Settlement, in either wild or cultivated state.

What's Inside

Inside your battery box are rubber jars.

Inside the jars is the solution.

In the solution are the positive and negative plates that supply current.

The job of Threaded Rubber Insulation is to keep the plates insulated and yet permit free flow of current for starter, lights and ignition. Threaded Rubber Insulation is the kind selected by 136 manufacturers of passenger cars and motor trucks.

"I Hope My Husband Gives Me A Liberty Six for Christmas"

That was what one Glendale woman said the other day and hundreds of others, not so frank, are thinking the same thing

It is unnecessary for us to exclaim about the merits of the Liberty. Even if you are not already a Liberty owner, and consequently certain of its goodness, you must know the worth of this car because of what people all around you have to say about it.

The beauty of the Liberty is, of course, its first attraction. But the character of the car goes far beyond surface virtue, because it embodies comfort and superior performance and enduring worth, in an even greater degree than unusual beauty of design.

People recognize the attractiveness of the Liberty, instantly. The comments you hear, everywhere, on its graceful lines and style, universally take the tone of friendly praise.

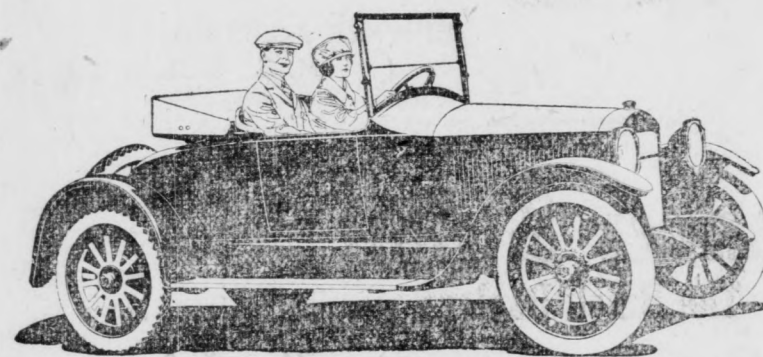

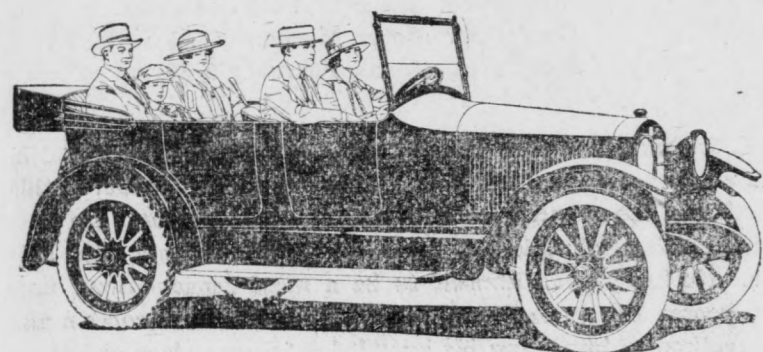

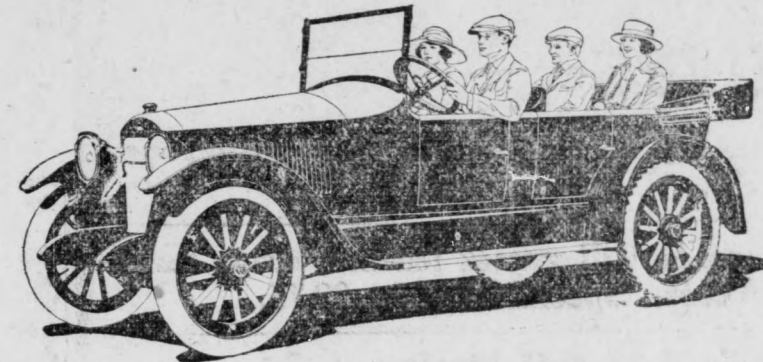

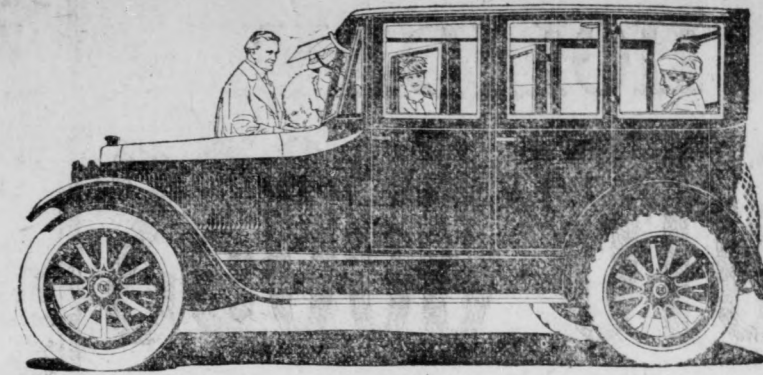

Yet the most casual investigation will satisfy you that people are even more conscious of the wonderful quality of its riding and driving, than its tasteful appearance.

It is a fact that the Liberty does ride and drive differently, and better.

Because those things having to do with the character of its riding, and particularly with the quality of its driving, have been the objects of particular care by Liberty builders.

There is no mistaking this difference.

You feel it at once, and you know at once, also, that the quality of the car must be of a very high order.

Even if your first strongly favorable impressions were not confirmed by the experience of Liberty owners, you would appreciate that a car which performed so beautifully must be superior in design and in the scrupulous care with which it is built.

Superiority so marked as that which shows itself unmistakably in the first ten minutes could only come from goodness deeply embedded in design, in material, and in construction.

That this is true, is doubly emphasized by the slight cost of Liberty service. And the car's reputation for economical maintenance is too well established to require explanation.

Liberty Six as a Christmas Gift

F. O. B. Glendale, Tax Paid

California claims to have more women who can drive their own motor cars than any other state.

A new motor tourist's camp in Denver will accommodate 2000 cars and about 8000 individual tourists.

Miss Marie Majereva, an author, has been appointed director of the National theatre in Prague.

In 1892 the law society of Toronto extended to women the privilege of practicing in the courts of that city.

FORD EXHIBIT AT AUTOMOBILE SHOW

MOST COMPLETE SHOWING EVER
MADE IN LOS ANGELES IS
OF PUBLIC INTEREST

All motorists who own Ford cars will surely be interested in the Ford display at the automobile show being held on the corner of Seventh and Figueroa streets, Los Angeles, from December 11 to 18, inclusive. This will be the most complete showing of Fords the southern California motoring public has ever had the opportunity of viewing.

The assemblage will include every model made by the Ford Motor company. There will be displayed sedans, coupes, touring cars in the pleasure-car class, while in the industrial division will be found the Ford one-ton truck with regular standard body and the popular business utility, the Ford runabout. In addition, the Fordson tractor, already so popular in the agricultural sections, replacing the horse to a large degree on many farms, and which is now fast entering the industrial field, replacing the truck in many different lines, will be shown.

In the same manner the Ford coupe has replaced the runabout to a great extent as a two-passenger pleasure car, while the sedan is being favored to an even greater degree over the five-passenger touring car.

Cannot Yet Meet Demand

The Los Angeles Ford dealers state that while the output of Ford coupes and sedans for 1920-21 is practically double that of last year, it is still insufficient to meet the demand that is increasing by leaps and bounds. They state that an inspection of the coupe and sedan on display at the auto show will readily disclose the reasons for the great increase in sales of these two models, and that it is a fact that anyone who has used the closed car through one season will buy no other type for pleasure use.

You will find at all times one or more Ford dealers on hand to extend you a cordial welcome. They will be only too glad of the opportunity to demonstrate and explain the newest features of all Ford models; also, throughout the week there will be demonstrating cars available, which prospective customers can test to their own satisfaction.

DAVEY JOINS BOSCH FORCES

Roy S. Davey, until recently general sales manager of the Bethlehem Motors corporation, has been appointed Detroit branch manager of the American Bosch Magneto corporation.

Ford

THE UNIVERSAL CAR

Fords at the Auto Show

The most complete showing of Fords ever made in Los Angeles will be displayed at the Automobile Show, December 11 to 19, inclusive, at Seventh and Figueroa Streets.

The assembly is a most notable one, including as it does, Sedans, Coupes and Touring Cars in the pleasure car class while in the commercial division will be found Ford one-ton Truck with standard body, and for popular business utility the Runabout.

To this display will be added the Fordson Tractor, already so popular in the agricultural sections, and which is fast entering the industrial fields.

You will find at all times one or more of the following Ford dealers on hand to demonstrate and explain the newest features. In justice to yourself it is urged that orders be placed at this time to insure an early delivery.

LIBERTY CAR WINS FAVOR IN GLENDALE

B. G. SUTHERLAND HAS AGENCY
FOR BOTH LIBERTY AND THE
GARDNER AUTOMOBILES

B. G. Sutherland, who recently took the local agency of the Liberty motor car, has already made some sales of that excellent machine. As is well known, Mr. Sutherland also handles the Gardner, and a member of the distributing house for this car told The Evening News man the other day that Mr. Sutherland had been one of their most successful representatives. He added, parenthetically, that Mr. Sutherland "is a live wire and a fine young man."

FORD IS MAKING QUANTITY OF FLOUR

MANY BARRELS WILL BE DAILY
OUTPUT OF HIS MILL FOR
BENEFIT OF EMPLOYEES

One hundred barrels of flour will be the daily output of the Henry Ford grist mill, Dearborn, Mich., before the end of the year, if the rapid progress which is being made continues uninterrupted. At present it is planned to sell the flour in the employees' commissary stores. With the wheat grown on the Ford farm, the mill will complete a "from farm to elevator to mill to store to consumer" link. No one outside the Ford organization touches the product, says Jesse Smith, local Ford dealer.

The flour will be milled as efficiently as modern equipment can do it. Carried into the mill on a belt from the elevator alongside the building, the grain is given a final cleaning treatment before being cracked and graded. A number of bolting machines separates the white flour from the chaff and bran, and the finished product is then stored untouched by hands.

At the present time there are three Ford commissary stores; one located at the Ford factory, one at the Ford blast furnaces and coke ovens, and one at the Fordson tractor plant. Groceries, meat, clothing, shoes and drugs are sold at cost to all Ford workers.

NEW VEHICLE LAW TO BE COMPLETE

RELATION OF MOTOR TRUCKS
AND BUS TO STATE ROADS
MAY BE DETERMINED

There is reason to believe at this time, according to opinions expressed by those who attended the recent conference at Sacramento called by the state motor vehicle department, that a great deal of value to the interests of all motorists and owners of automotive equipment will result from that gathering.

The attitude of the motor vehicle department in its desire to co-operate and be supplied with facts concerning motor-vehicle operation on the highways was decidedly magnanimous. It is the belief of all who attended the conference that although California's next motor vehicle law may not be perfect, it will be improved in many ways over the act of 1919.

The welfare of the public's common cause will be the chief idea in considering changes in the law. These will be given consideration in the next meeting of the conference, which will be held in Los Angeles December 21 and 22. The appointment of Dave E. Smith, attorney for the Los Angeles Motor Car Dealers' association, as permanent chairman of the conference met with unanimous endorsement. Mr. Smith probably is more familiar with the motor vehicle statutes than any man in the state, having attended all previous conferences and being instrumental in the preparation of existing laws.

Operation on Highways
The relation of the motor truck and the motor bus to the public and their operation on the highways undoubtedly will receive as much attention as is devoted to any other consideration. According to a representative who attended the conference, there are two primary factors that must be given prior recognition in framing the new law.

These are protection of the highways and promotion of motor trucking. All trucking interests recognize their dependence on good roads, as without them there would be no truck sales or truck operation. It is admitted that California highways originally were not of sufficiently permanent construction, but nevertheless, they must be conserved as they are as much as possible.

One of Main Points
At this time it is generally well recognized that a slow-moving,

SPRING DEMAND FOR AUTOS TO BE GREAT

S. C. PACKER DECLARES THAT
THERE WILL BE SHORTAGE
WITHIN FEW MONTHS

"I do not know of an automobile factory in Detroit that is operating at anything approaching full production. There is nothing more certain than that there will be a decided shortage of motor cars next spring, particularly of the standard makes."

This declaration was made by S. C. Packer, of Packer & White, Studebaker distributors for the San Fernando valley.

"It must be remembered," said Mr. Packer, "that production of automobiles cannot be instantly increased. There is every indication that the spring demand will be very heavy. The price flurry we have just experienced undoubtedly caused many would-be purchasers to delay their purchases until spring. Motor car production is at a low mark in Detroit today."

"If the demand comes suddenly in the spring, as it did two years ago, it will take several months to get production into full swing. As for the man who is waiting with the idea that motor car prices will be lower next spring, my earnest advice to him is to buy now."

properly-tired motor truck that is not excessively overloaded is not damaging to the highways, and that the chief source of road wear is attributable to the narrow-tired, overloaded truck that travels at excessive speed. One of the points that the conference will seek to iron out therefore, will be a form of regulation of large-capacity trucks when properly tired, and a more definite regulation of trucks of less capacity, which frequently are operated under overloads.

Experiments have shown that the wear caused by trucks to the highway when they are equipped with pneumatic tires is almost negligible. Truck speed does more actual damage to the roads than the weight of the load, except when the truck is under-tired. Consequently, it seems that to maintain the same speeds as some trucks now travel on the highways, the new law will stipulate that they must be equipped with pneumatic tires. The question of speed limits of motor trucks is something that will require careful attention on the part of the conference and its subcommittees.

AUTOMOBILE SHOW OPENS TO PUBLIC

DISPLAY IN LOS ANGELES IS
ARTISTIC; GREAT VARIETY
OF CARS EXHIBITED

Los Angeles' "automobile row" has been a busy place during the past few days, salesmen, managers and heads of local distributing firms being busily engaged with their plans for the automobile show which opens this evening, December 11.

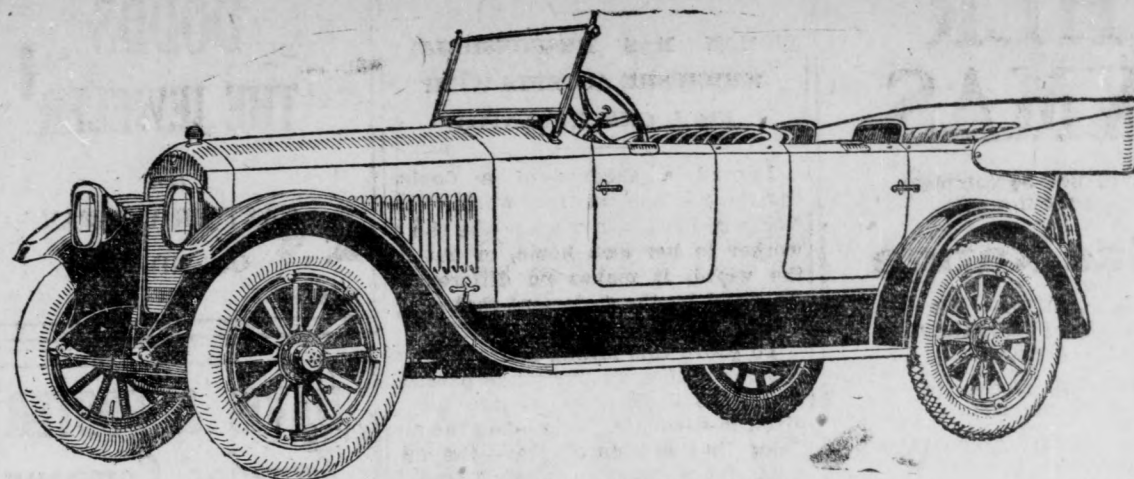

It appears that a keen spirit of rivalry has developed among the various firms who market motor cars, with the result that there is more mystery and secrecy about the show than ever before.

Nobody wants to tell anybody else just what will be shown at their own private exhibit, everybody evidently intending to spring a few pleasant little surprises on their neighbors when the doors of the new Arnold building at Seventh and Figueroa streets are thrown open tonight.

However, it is a safe guess to say that there will be more beautiful cars under one roof than were ever gathered in one building anywhere in America before. "Motordom's Fashion Revue" will more than live up to its name and it is expected that this show management can lay claim to the distinction of exhibiting more special jobs and artistic motor creations than any preceding show; this in spite of the fact that the national shows at New York and Chicago are under the direction of the manufacturers and show to the automobile men of the nation. At these eastern exhibits only strictly stock models are put on display, with the result that they are of more interest to the manufacturer, the distributor and the dealer than they are to the general public.

Plan for Artistic Display
The national shows are for the purpose of selling strictly stock cars to the distributor, while the Los Angeles show has as its purpose the display of the best in motor cars to a very discerning buying public, the object being fully as much artistic as commercial.

Los Angeles shows in the past have won nation-wide recognition, because of the number of beautiful cars which have been displayed and many men high in eastern automobile circles have toured across the country to see the display of new styles and models at the local exhibits. From present indications there will be many eastern and middle

DRIVE A NEW STUDEBAKER YOURSELF AN INVITATION

—You don't drive words—you cannot tell one thing about a motor car by listening to claims and laudatory phrases.
—But driving is believing. We know that Studebaker Motor Cars have set a new standard of comfort and power. You will know it when you drive a Studebaker.

The Patented Essex Motor Delivers 55 H. P.

An Advantage That Means Everything
in California Service

Why No Hill Bars the Essex

Just a few Essex hill-climbing records, made in a week of nation-wide tests, in which many owners participated, setting marks that have never been equalled

California—Rim o' the World, climbed nearly 5,000 ft. over difficult 8.8 miles of mountain road in 17 minutes, 23 seconds, beating all previous records.

Bridgeport, Conn.—4 Essex cars broke record on Sport Hill going over top from standing start at 52, 56, 57 and 60 miles per hour respectively.

Helena, Mont.—First car ever to cross Continental Divide on high at Priest Pass, 5984 ft. altitude.

ALL know that California touring and general automobile use demands far more ability and capacity than average service in flat, or merely rolling country.

We know that many of California's most beautiful trips are effectively barred to cars of indifferent ability and power, by the very hills that invite our quest of the beauties beyond.

The constant need of attention, as well as the mental anxiety to passengers, of an under-powered car, deprives motor-ing of half its charm.

You will readily understand

therefore that there is a special local reason for the great number of Essex cars you encounter in California, quite apart from the thorough goodness and performance appeal, which have made it so popular everywhere.

The noted hill-climb marks Essex has set, which include the authoritative records of nearly every well known test hill in America, give ample assurance of its ability to come and go wherever California's charms invite, without regard to hills or distances, or the convenience of service stations.

CHAMBERS & FELTS

228 SOUTH BRAND BLVD.

GLENDALE 1320

western visitors at this year's show and ultimately if the body building plants of the city continue to gain national honors for the originality and excellence of their custom-built work, it seems more than probable that the local show will in time be recognized in eastern circles as the most distinctive automobile exhibit in the world.

The dealers also expect to pay more than a little attention to the mechanical features of their cars, realizing that it is a wise public these days when it comes to selecting motor cars, and that the average motorist of today knows as much about the mechanics of his car as the average mechanic knew a few years ago.

Cut-open chassis and special motor displays will feature many exhibits, while competent salesmen will be on hand to explain in the minutest detail every mechanical feature of the cars that they have on display.

Great Crowd Is Expected
A record-breaking attendance at the show is also promised, every indication being that the out-of-town attendance will be larger than ever before. Dealers from all points in the southern California territory are making plans to come in for the week of the exhibit and at this time there will undoubtedly be a great many new dealers appointed throughout the southern California territory by distributors not now having representation in certain towns and cities near here.

The dealers' committee, which have been spending more time on the show than they have devoted to the management of their own businesses during the past week, yesterday made a very enthusiastic report on the prospects for the success of the ninth annual auto show.

CAPITAL STOCK IS INCREASED
Stockholders of the Jacquet Motors Corporation of America of Belting, Mich., have voted to increase the capital stock of the company from \$100,000 to \$250,000.

TEACHERS ALSO CHAUFFEURS

The school board in Cimarron, Kans., employs teachers as chauffeurs in consolidated schools, paying them 60 cents an hour. The buses run on regular schedule, and the motor routes are so laid out that the buses call at the home of each child. Truancy is impossible.

AIRMAN GETS AUTO RECORD

Sadi Lecointe, the aviator who won the Gordon Bennett cup for aviators, recently established what is declared to be an automobile record for 200 meters. From a standing Lecointe made the distance in 13.3 seconds. It was his first attempt at automobile racing.

Business women of Kansas City are to have a downtown clubhouse.

HARDEST WORKER

WOMAN HAS RESPONSIBILITY WHICH SHE ACCEPTS WITH FULL CHEERFULNESS

Beyond a shadow of a doubt, there's no one in the world who works so hard as a woman—be she a worker in her own home, or out in the world, it makes no difference; we stand by the statement that she's the hardest worker in the world.

To prove this strong statement we cite the numerous Christmas bazaars that have been given or are being given in Glendale. Who made the articles that are on display—the aprons, fancy work, cookery, candy? Women, of course. Who cooks the lunches and dinners that are served at these fairs? The women of the church, needless to say. Who dressed the dolls (and it's no small task)? The women's skillful fingers were the ones, of course, that did it. Who planned the entertainment, solicited donations, bought materials, decorated the booths, made the cakes, attended to an infinite number of petty details? Again the answer is, the women.

To be sure, a good-humored, tolerant man or two may have driven a nail here and there, or lent his machine, or helped a bit in some other way—but the brunt of the work and all of the responsibility of any fair or bazaar rests upon the shoulders of the women. Mark, too, that they undertake this work in addition to their regular tasks in the home or out in the business world.

And for what do they toil, these determined, persistent, efficient women—glory? gold? fame? None of these things are the reward of their labors. They work not at all for self, but to earn money for a club house that will benefit the community in many ways, or to pay off the debt on the church, or to add to the building fund of a new church, or to contribute to the comfort of soldiers in some home or to bring cheer to children in some hospital.

Would Men Do It?

Would men do all this extra hard work in a cause not directly their own? Decidedly, no. They'd go down in their pockets and hand out money enough to buy themselves immunity from this extra burden, thus saving themselves valuable energy and time. And we're not saying the men are wrong in doing this—we merely point out the difference in the modus operandi of men and women in handling outside demands on their time and strength.

Women may go down into their pockets, too—but they find them not so deep and so well filled as men's; so they put their industrious, skillful fingers to work to make pretty things to charm the money out of the pockets of the rest of us at a Christmas fair.

Now this is just what the ladies of the Church of the Holy Family have done. 'Tis truly amazing the number of beautiful and useful things they have assembled to lure the money out of our pockets at their Christmas bazaar, which opens Monday in the old Elks' hall in the Central building, and continues for three days and three evenings. Elaborate preparations have been made and much hard work by the ladies has gone into the making of these preparations. They hope to have their efforts crowned with substantial success in the shape of a tidy sum to add to the building fund for their new church to be built on the corner of Louise street and Lomita avenue.

General arrangements are in charge of a committee, of which Mrs. J. W. Lawson is chairman and Mrs. P. C. Moes assistant chairman.

The chairman of the different booths are busy about many things, preparing delightful surprises. A diamond ring has been donated for one of the prizes and another prize is a real, live burro broken for children to ride or to drive. A handsome dress, a gold wrist-watch, turkeys and chickens and other valuable prizes are features that will stimulate the interest of visitors to the fair.

Fancy work, aprons, beautiful dolls, novelties, a grab bag, candies, ice cream, cooked foods, men's neckties and hosiery are among the things that will be on sale when the fair opens Monday morning.

SNAIL SUGGESTED SCREW

It is no doubt true that nearly all human inventions have been suggested by natural objects. Fremont, of the French School of Mines, points out an interesting example in the case of the screw, the fundamental idea of which, he believes, was suggested to primitive man by the spiral shape of the edible snail.

It was not the shape of the shell that suggested the screw, but the spiral motion which it is necessary to give to the body of the snail in order to withdraw it from the shell. This at once showed that an object of a screw shape embedded in a solid body powerfully resisted attempts to withdraw it by a straight pull.

The hint was enough, and the screw became one of the earliest of man's inventions.

OFFERS TO GIVE VICTIM \$10

STREUBENVILLE, O.—Daniel Cable, a pottery worker, reported to the police today that a highwayman who held him up last night while en route to his home in a suburb offered to give him \$10 after the highwayman discovered that he was penniless. "Here, brother, you need it worse than I do," said the man.

Topic, "Wise Sayings that Have Helped." Leader, Miss Hazel Walters. Evening praise and preaching service at 7:30. Sermon theme, "What If Jesus Had Been Mistaken?" Prayer meeting on Wednesday evening at 7:30. Topic for study, "What It Means to Belong to the Church."

CENTRAL CHRISTIAN

Corner Louise and Colorado streets. Clifford A. Cole, minister. The morning worship and communion at 10:30. Mrs. Alice E. Jackson, state

POPULAR MUSIC

CATCHY SONG IS FEATURED UPON COLUMBIA RECORDS; LEWIS' JAZZ BAND

The last two words are made to sound especially sweet and significant in Van and Schenck's latest Ziegfeld Folies song, "All She'd Say Was Umh Hum," which they sing for Columbia Records this month. On the other side of this record they sing "In Napoli," one of their characteristic dialect rags with a "Sole Mio" intermezzo.

Nora Bayes utters in "The Broadway Blues," a protest against doing the same old things all over again. Another novel kind of blues song on the other side of this record is her "Singin' the Blues," a lament of loneliness.

Ted Lewis' Jazz Band has played two fox-trots for Columbia Records this month. "The Hula Blues," with a piano part played in imitation of a ukulele, and "I Love You Sunday," with a cornet solo that sounds "different," have plenty of rhythm and harmony, together with that joyful jazz note Ted Lewis usually imparts.

JANITOR INHERITS FORTUNE

FORT WAYNE—Charles Wine land, an \$80 a month janitor at the city hall here, leaned on the handle of his broom long enough to read a letter today, and then a few hours later started for California to claim a 114-acre fruit farm in the outskirts of San Francisco and \$28,000 deposited in a bank there.

The letter informed him that his brother had died leaving his estate to the janitor and a sister, Mrs. Caroline Bowman, of Burlington, Ind. The farm is appraised for taxation at \$75,000, according to the letter.

FRANCE WANTS 1924 OLYMPIC

PARIS—The French Olympic committee has sent an official request to the International Olympic committee that the Olympic games of 1924 be held in Paris. The international Olympic games to be held in 1922 have been awarded to Brazil.
